

Dear Parent / Caregiver

Every year the school spends thousands of dollars on reading books. Taking a book home every night to read is an important part of your child's learning.

The average cost of a reading book is \$9.00. If every child in the school fails to return one book during the year the overall cost to the school is approximately three and a half thousand dollars (**\$3,500**).

Please help your child to search at home for school reading books and return them to school.

Children returning books will not be growled at or punished in any way. We will just be grateful to have the books back.

Thank you for your on going support
